

§ 1491.5

(3) Eligible lands are farm and ranch lands subject to a pending offer, as defined in §1491.3, for purchase of a conservation easement.

(4) Eligible land must be privately owned. NRCS will not enroll land in FRPP that is owned in fee title by an agency of the United States or State or local government, or land that is already subject to an easement or deed restriction that limits the conversion of the land to nonagricultural use, unless otherwise determined by the Secretary.

(5) Eligible land must be owned by landowners who certify that they do not exceed the adjusted gross income limitation eligibility requirements set forth in Section 1604 of the Farm Security and Rural Investment Act of 2002.

(e) Prior to FRPP fund disbursement, the value of the conservation easement must be appraised. Appraisals shall be completed and signed by a State-certified or licensed general appraiser and shall contain a disclosure statement by the appraiser. The appraisal shall conform to either the Uniform Standards of Professional Appraisal Practices or the Uniform Appraisal Standards for Federal Land Acquisitions.

(f) At the discretion of the Chief, a standard easement or equivalent legal form, which meets the intent of the 2002 Act, will be required as a condition for program participation.

(g) The landowner shall be responsible for complying with the Highly Erodible Land and Wetland Conservation provisions of the Food Security Act of 1985, as amended, and 7 CFR part 12.

§ 1491.5 Application procedures.

(a) When funds are available, NRCS publishes a Request for Proposals in the FEDERAL REGISTER or, at the discretion of the Chief, uses another process to solicit applications from eligible entities to cooperate in the acquisition of conservation easements on farms and ranches. Information required in the application will be set forth in the Request for Proposals.

(b) To participate, an eligible entity submits a proposal to NRCS for the acquisition of conservation easements on eligible farm or ranch land, on which the entity already has pending offers.

7 CFR Ch. XIV (1–1–06 Edition)

An entity's application contains a request to fund one or more parcels. All applications must be submitted to the appropriate NRCS State Conservationist by the specified date, as indicated in the Request for Proposals.

§ 1491.6 Ranking considerations and proposal selection.

(a) Once the NRCS State Conservationist has assessed entity eligibility and land eligibility, the State Conservationist shall use National and State criteria to evaluate the land and rank parcels. Entities and parcels will be selected for participation based on the entities' responses to the Request for Proposals. Selection will be based on national ranking criteria set forth by the Chief in the Request for Proposals and State criteria as determined by the State Conservationist, with advice from the State Technical Committee.

(1) Examples of national criteria may include:

(i) Acreage of prime, unique, and important farm and ranch land to be protected;

(ii) Total acres of land to be protected with the requested award;

(iii) Acreage of prime, unique, and important farm and ranch land identified in the National Resources Inventory as converted to nonagricultural uses;

(iv) Total acres needing protection;

(v) Number or acreage of historical and archaeological resources to be protected on farm or ranch lands;

(vi) Anticipated average FRPP cost per acre;

(vii) Rate of land conversion (*e.g.*, local land use conversion rates);

(viii) Amount of the Federal share to be contributed to the acquisition of the conservation easement, as guaranteed by the eligible entity;

(ix) History of eligible entity's commitment to conservation planning and conservation practice implementation;

(x) History of an eligible entity's commitment to assisting beginning farmers and ranchers, to promoting opportunities in farming and ranching, and to farm and ranch succession transfer;

(xi) Eligible entity's history of acquiring, managing, holding, and enforcing conservation easements. This could include annual farmland protection expenditures, monetary donations received, accomplishments, and staffing levels;

(xii) A description of the eligible entity's farmland protection strategy and how the FRPP application submitted by the entity corresponds to the entity's strategic plan; and

(xiii) Eligible entity's estimated acres of unfunded proposed conservation easements on prime, unique, and important farm and ranch land.

(2) Examples of State or local criteria, as determined by the State Conservationist may include:

(i) Proximity of parcel to other protected clusters;

(ii) Proximity of parcel to other agricultural operations and infrastructure;

(iii) Parcel size;

(iv) Type of land use;

(v) Maximum FRPP cost expended per acre;

(vi) Amount of the Federal share to be contributed to the acquisition of the conservation easement, as guaranteed by the eligible entity;

(vii) History of an eligible entity's commitment to assisting beginning farmers and ranchers, to promoting opportunities in farming and ranching, and to farm and ranch succession transfer;

(viii) Existence of a parcel in an agriculturally zoned area.

(b) State ranking criteria will be developed on a State-by-State basis. Prior to proposal submission, interested entities should contact the State Conservationist located in their State for a full listing of applicable National and State ranking criteria.

(c) The NRCS State Conservationist may seek advice from the State Technical Committee (established pursuant to 16 U.S.C. 3861) in evaluating the merits of the applications.

§ 1491.7 Funding priorities.

(a) NRCS will only consider funding the acquisition of eligible land in the Program if the agricultural viability of the land can be demonstrated. For example, the land must be of sufficient size and have boundaries that allow for

efficient management of the area. The land must also have access to markets for its products and a support infrastructure appropriate for agricultural production.

(b) NRCS may not fund the acquisition of eligible lands if NRCS determines that the protection provided by the FRPP would not be effective because of on-site or off-site conditions.

(c) NRCS will place a higher priority on easements acquired by entities that have extensive experience in managing and enforcing easements.

(d) During the application period, pending offers having appraisals completed and signed by State-certified general appraisers within the preceding one year shall receive higher funding priority by the NRCS State Conservationist. Before funding is released for easement acquisition, the cooperating entity must provide NRCS with a copy of the certified appraisal.

(e) NRCS may place a higher priority on lands and locations that help create a large tract of protected area for viable agricultural production and that are under increasing urban development pressure(s).

(f) NRCS may place a higher priority on lands and locations that link to other Federal, Tribal, or State governments or non-governmental organization efforts with complementary farmland protection objectives (*e.g.* open space, watershed and wildlife habitat protection).

(g) NRCS may place a higher priority on lands that provide multifunctional benefits including social, economic, historical and archaeological, and environmental benefits.

(h) NRCS may place a higher priority on certain geographic regions where the enrollment of particular lands may help achieve National, State, and regional goals and objectives, or enhance existing government or private conservation projects.

(i) NRCS may place a higher priority on farms or ranches that have or will have a greater variety of natural resources protected.

(j) NRCS may place a higher priority on farms or ranches that have a farm succession plan or similar plan established to encourage farm viability for future generations.
